

## NEWSLETTER NOVEMBER / DECEMBER 2018

Dear Customers,

Newsletter time, the last for 2018 and with Christmas impending, for many, relief from the devastating east coast drought. Last week I was in Adelaide and the contrast resulting from good winter rains was very apparent. Despite widespread rain though, we need follow on to set many of the essential acacia and eucalyptus crops we are so dependent on for mine site and road revegetation.

In this newsletter, we have a segment of offering from the Madagascan Islands, the origin of many important landscape palms. We look forward to responses hopefully allowing us to collate for orders in the months of collection – believe me, we have been trying to set this supply source up for a number of years!

May I, on behalf of Margaret, Charmaine, Amanda and Nikita wish you and your families a very Merry Christmas and Peaceful and prosperous New Year.

Kind regards

*Mike*

Please note our office will be closed from 12pm Friday 21<sup>st</sup> December and we will return Wednesday 2<sup>nd</sup> January.

## November / December 2018 Specials!

*Banksia integrifolia* \$57.50/1000 seeds
