

NEWSLETTER JANUARY / FEBRUARY 2019

Dear Customers,

Welcome to 2019!

Trusting you have had a relaxing Christmas and are ready for the challenges ahead. As we know, Queensland agriculturalists and horticulturalists, reliant on natural events, will be seriously challenged with continuing drought now exacerbated by the devastating fires of early December, so by any reckoning, seed for revegetation is going to be very hard to come by, a tough time ahead for all I suspect!

I would like to start our year by giving credit to our wonderful staff, Margaret, Charmaine, Amanda, I'm sure you know them and appreciate their efficient attention to your need and Niki in the seed room, possibly not so well known amongst our customers but doing a great job nevertheless... as ever, my gratitude and thanks!

Kind regards

Mike

Please note our office will be closed from Friday 21st December and we will return Wednesday 2nd January.

January / February 2019 Specials!
