

## NEWSLETTER MARCH / APRIL 2020

Dear Customers

This is likely to be my last Newsletter for I anticipate that our new owners Cameron Clarke and Bill Fuller will want to impose their comments in future Newsletters.

Selling AustraHort has of course been a bitter/sweet experience for me for inevitably, despite that I will be here for a further six months, one loses a centre of purpose in that we get up each day and deal with what opportunity presents and have been privileged to do so with the aid of our terrific staff – the downside, but the positive is the reality that at the age of near 77, I must have succession and that's what we have and I have passed the company to Cameron and Bill with my best wishes.

No doubt the rain for all has brought renewed activity and the promise of a return to normalcy – for us, the quest to replenish seed as nature once again begins her process of reproduction.

Best wishes to all.

Kind regards

*Mike*
